

**PRESS STATEMENT**

**Ayres Laguna Woods No Longer Participating in County Program  
Support Continues with Ayres ALO Hotel in Orange**

April 6, 2020

Ayres Hotels understands the importance of assisting the County of Orange in this public health emergency, easing the burden on our local hospitals and minimizing the spread of the COVID-19 virus in our communities. These are unprecedented times and while originally two of our properties were selected by the county, we have listened to our valued neighbors in the community of Laguna Woods Village. Given the property's unique and close proximity to the large senior citizen community, we have been able to work with the county and will be granted immediate release from our contract at Ayres Laguna Woods.

We have heard the concerns of Laguna Woods residents and do not want to add more fear or worry to our neighbors. Ayres Hotels remains committed to supporting the county with our ALO Hotel in Orange, which is in close proximity to several medical facilities and will operate under strict isolation protocols enforced by the county. Care for our neighbors is the utmost priority, weighing also the needs of the community as a whole.

**About Ayres Hotel**

In the hotel business since 1984, Ayres Hotels are a family-owned and operated collection of 23 handcrafted boutique hotels in premier California locations dedicated to excellence in hospitality and providing an unparalleled product. The collection is built on a foundation of inviting, personalized service while being a supportive organization that reflects a culture of caring for its guests and team members. The Ayres family has been a leader in the California residential and commercial real estate industry for more than a century. Visit the company online at <https://www.ayreshotels.com/>
